THIS IS US

Our mission is to deliver high quality services, providing our guests with unforgettable experiences and a lifetime of happy memories. To make sure future generations enjoy the same wild places, we travel responsibly with minimum impact.

The online tour selection should give you an idea of what we have to offer. But keep in mind that our tours are always private, and we offer full flexibility to adapt the itinerary to your wishes.

Our guides are all highly experienced in traveling through the rough conditions of the Icelandic highlands and many of them have led expeditions in Antarctica.

We are proud to offer our clients the opportunity to sit behind the wheel of a powerful 4x4 truck, as seen in the BBC Top Gear series, in one of the world's most stunning places. We teach our guests to travel safely and drive with great respect for nature.

Come join us on an adventure of a lifetime!

ADVENTURE TRAVEL
TRADE ASSOCIATION

EXPEDITIONS

Challenge yourself on a glacier camping expedition. Experience nature in its purest form away from civilization. Stay in a remote mountain hut under the Northern Lights. Navigate through highland tracks and rivers under the Midnight Sun. There may be no wi-fi, but don't worry, you will find a better connection.

We benefit from driving Arctic Trucks modified vehicles, giving us year-round access to the vast Icelandic highlands. Our expeditions take you deep into the highlands, whatever the season, weather or road conditions. We are explorers at heart and innovators at mind – this combination allows us to explore further and deeper into the wilderness.

Join us on an expedition and experience Iceland like never before.

5-STAR CUSTOM ADVENTURE

Do you like the finer things in life combined with adventure? Then look no further!

This tour is based on staying 2-nights at Hotel Grímsborgir and 1-night at The Retreat by Blue Lagoon. Those are the finest hotels in Iceland, and in fact the only ones who have been officially awarded 5-stars.

Depending on flight schedule, your first or last night will be enjoyed at The Retreat by Blue Lagoon, where you will have access to the exclusive lagoon and spa. While staying 2-nights at Hotel Grímsborgir, you will have an experienced guide at your service who will assist you in deciding where to go to take best advantage of the day.

Depending on your interests and current weather/road conditions, this could for example include a trip to Þórsmörk, Landmannalaugar or Langjökull glacier. You may also want to give control to the guide, and they will bring you to their own favourite spots which never disappoint.

life is an adventure dare it

SELF DRIVE

Our Self-Drive programs are specially tailored as unique off-the-beaten-path journeys. Iceland is so much more than just the coastline which is visited by most self-drive tourists! Explore the beauty of the island at your own pace, with access to more remote locations which add to your experience.

You will benefit from receiving a detailed itinerary with recommended stops and points of interests along the way. Information on hidden spots and local favourites are a must for you to enjoy your stay to the fullest.

Don't miss out – seek advise from the experts for your next trip!

GROUPS

We work with service providers and hotels from all over Iceland and are happy to tailor the ideal tour for your group, offering services from the moment they arrive in Iceland until they depart.

Our expert team is experienced in designing corporate and team building tours for groups from all over the world, and of all shapes and sizes. Our unique activity rotation incentive programs are highly successful and fully customizable to your group's requirements. A hands-on experience connects the group and creates conversations for years to come.

All car manufacturers, companies related to vehicles, and car enthusiasts are specially welcome! For those interested, we offer the possibility to learn about Arctic Trucks' history of car modifications, including a visit to our workshop.

we make it happen

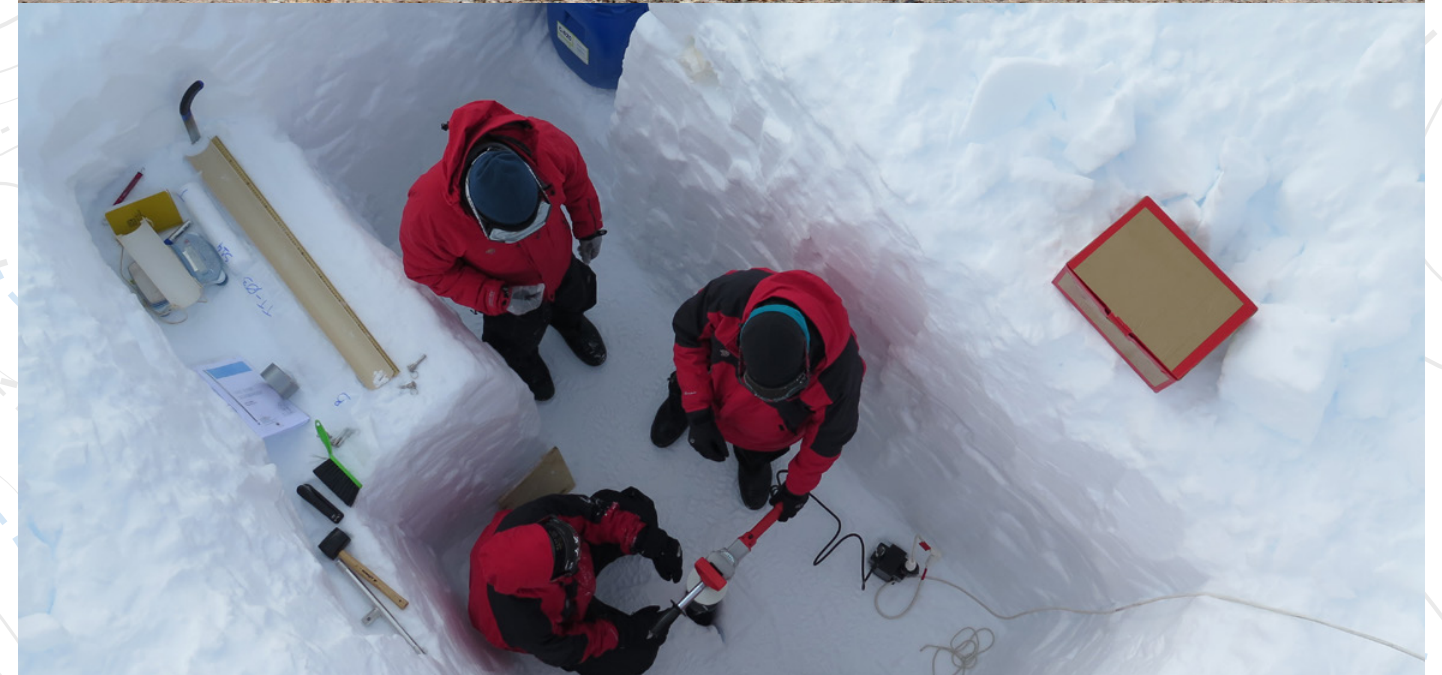

LOGISTICS ICELAND & ANTARCTICA

The Arctic Trucks Experience team has an exceptional record of providing logistical services for complex assignments in Iceland, Greenland, the Arctic and the Antarctic. We have proudly serviced an array of projects, ranging from science support to high fashion shoots, filming projects to automotive testing.

We are experienced innovators and have great connections across multiple service sectors, ensuring that every aspect of your logistical needs will be fulfilled, even in the most demanding conditions

- Filming and photoshoots
- Special projects
- Logistic support for skiers and kites
- Scientific support
- Weather observations
- Aviation support / making runways
- Establishing depots
- SAR planning
- Luxury camping
- Adventure planning and execution
- Medivac / Rescue

ANTARCTICA

Expeditions are of great importance to Arctic Trucks Experience, enabling us to increase our level of knowledge and the overall quality of our modification work. We have pioneered faster and more efficient ways to travel on the Antarctic Plateau, giving every explorer access to this wonderful and thrilling continent.

We specialize in deep field operations in Antarctica, operating, we operate both in Queen Maud Land, accessed through Cape Town, and at Union Glacier, accessed through Chile.

We offer both pre-setup expeditions i.e. driving to South Pole and crossing Antarctica plus tailor made driving expeditions and support to other operations in support of research. Currently 6 National scientific programs use our vehicles in Antarctica. We have setup expeditions for big corporations and i.e. supported Walking with The Wounded charity expedition skiing to South Pole with Prince Harry.

RESPONSIBLE TRAVEL

Our mission is to deliver high quality service while providing our guests with an unforgettable experience and happy memories to last a lifetime. To make sure future generations enjoy the same wild places, we travel responsibly with minimum impact.

We teach our guests how to drive respectfully and travel safely. We have great respect for nature and encourage our customers to avoid travelling over any terrain that could possibly be damaged by the vehicles.
